

Managing Your Business with QuickBooks!!!

One Day Introductory Workshops

** Contact us for next available workshop or to schedule a personal appointment **

QuickBooks is the #1 business software on the market. It is very flexible, easy to use, allows customization for your business needs and modestly priced (roughly \$300-400).

- ✓ **Do you have a desire to computerize your accounting system?**
- ✓ **Do you need a way to invoice your customers and track accounts receivable?**
- ✓ **Would you like to have a “tool” that can help you manage your business?**
- ✓ **Are you interested in timely profit and loss reports that are available within seconds?**
- ✓ **Would you like to have the confidence in knowing that your accounting records are accurate?**

At the conclusion of this workshop, you will be able to:

- * **Create a chart of accounts and tailor it to your business**
- * **Record accounts payable and pay bills on pre-printed forms**
- * **Make deposits, classify revenues and track accounts receivable**
- * **Reconcile your bank account(s)**
- * **Print past due customer invoices**
- * **Charge, collect and remit sales tax**
- * **Print Profit and Loss statements and Balance Sheets**
- * **Control expenses using budgets, compare results to prior periods**
- * **Produce reports to facilitate year-end tax work**
